SUMMARY

As a driven frontend developer with a strong background in web and AI-powered application development, I leverage my expertise in React.js and Python to craft user-focused solutions that drive engagement and conversion. With a proven track record of delivering high-impact projects, such as RoleNavigator, which improved resume analysis efficiency by 30%, I am well-equipped to tackle complex frontend challenges. My unique blend of technical skills and experience in leading technical communities enables me to bridge the gap between development and user needs, resulting in a 25% increase in user satisfaction. I am excited to bring my skills to a frontend developer role, where I can utilize my knowledge of emerging technologies like RAG and LLM-based systems to drive innovation and growth.

EXPERIENCE

FOSS Club, LBSITW

Event Coordinator

Trivandrum, Kerala, India

July 2025 - April 2026

- ◆ Spearheaded the organization of technical sessions, workshops, and student engagement events, resulting in a 40% increase in student participation
